## DIAMONDS (MARCH 17, 2015):

"*Diamonds* really delivers in a big, new way. It's almost like energy is injected into the whole mix. It's like a whole new thing. I think it's just way more exciting to be in a band going through changes than just doing the same thing over and over again." - Daniel Biro, HN bassist

"The past few years have been a crazy ride for us Hawk boys. Lots of change, lots of amazing blessings, and also quite a few challenges. This album was forged in the fire of some of those trials. It's those times of pressure that God uses to shape us into something more beautiful. *Diamonds* sums up this truth we have found, that God is FOR US," - Jon Steingard, HN lead vocals
